

Biloxi Public Schools Green Initiative

Helping Biloxi contribute
to a greener planet.

Biloxi Public Schools and Schneider Electric™ have partnered to implement a district-wide energy savings project, which will:

- Generate \$4.5 million in guaranteed energy savings over 15 years, enough to fund 100% of the project and put over \$1.1 million back into the BPS budget
- Reduce utility costs by 15%
- Increase energy efficiency of schools
- Educate students and the community about environmental conservation

District-wide upgrades, self-funded through the energy savings, include:

- Energy management system retrofit & expansion
- HVAC replacements
- New water-saving fixtures
- Chilled water plant retrofit
- Classroom lighting retrofits
- Gymnasium lighting retrofits
- Exit lighting retrofits

Schneider
Electric™

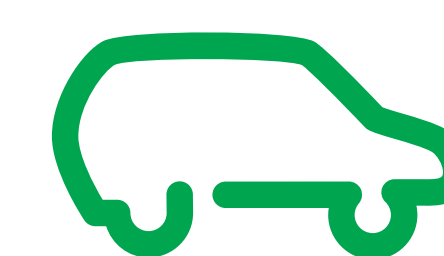

The environmental impact of the project is equivalent to:

removing **2,673 tons**
of carbon dioxide from
the atmosphere

— OR —

removing **651 cars** from
the roads

— OR —

planting **729 acres** of trees
